

This table indicates approximate dimensions and weights corresponding to building sizes shown in the left margin. Exact dimensions for particular design loads are available upon request.

NOTES:

- Design wind loads, q 1/30, can vary from 5 to 20 psf according to specifications.
- Roof design snow load can vary from 20 to 120 psf according to specifications.
- Dimensions and weight are shown in both imperial (ft - lbs) and metric (mm and kg) units.

DIMENSIONS		A	B	C	D	E	F	G	H	I	J	K	L	Weight
